PRESS RELEASE

DAJIN COMPLETES GRAVITY SURVEY AT TEELS MARSH

March 9, 2015 - Vancouver, BC– Dajin Resources Corp. (“Dajin”) (TSX-V: **DJI**) wishes to report that an initial gravity survey has been completed at Teels Marsh. This survey will be followed by additional geological and geophysical work in preparation for exploratory drill holes on Dajin’s 100% owned Teels Marsh claims in Mineral County, Nevada.

Management is currently on the ground in Nevada reviewing the work to date and planning for additional exploration. An advisory team is being assembled to assist in the review and evaluation relating to Dajin’s lithium projects in Nevada and Argentina.

About Dajin: (www.dajin.ca)

Dajin is an early stage energy metals exploration company holding a 100% interest in claims known to contain lithium and boron values in the Teels Marsh region of Mineral County, Nevada. These claims, which cover 2,191 hectares (5,414 acres), was the birth place of US Borax Corp’s first borax mine.

Dajin also holds a 100% interest in concessions or concession applications in Jujuy Province, Argentina that were acquired in regions known to contain brines with potassium, lithium and boron values. These concessions total approximately 100,000 hectares (247,000 acres) with 80,248 hectares (198,000 acres) located in the Salinas Grandes/Guayatayoc salt lakes basin adjacent to concessions held by Orocobre Limited (ORL-T: TSX), who is partnered with Toyota Tsusho.
